ODP #_O-1127_

13 August 1980
OLC: 80-1739

MEMORANDUM FOR: Director of Data Processing

STATINTL   FROM:

Acting Legislative Counsel

SUBJECT: Congressional Support Staff Automated Management
System

STATINTL

1. I request that the Office of Data Processing postpone its
implementation of the Congressional Support Staff Automated Management
System (CSAMS).   of this Office has already discussed
this matter with   of your Office.

2. The CSAMS project was to be a joint activity by this Office
and the Congressional Support Staff of the National Foreign Assessment
Center. With the recent transfer of the Congressional Support Staff
to this Office, this separate system is no longer necessary. We are
exploring the possibility of establishing a single system to handle
our overall Office needs. CSAMS at this point appears to duplicate
much of what is already being done by the Legislative Automated
Management System used by our Registry.

3. We are re-examining our needs and as soon as we have decided
which course of action is best for us, we will be in contact with your
representative. We apologize for any inconvenience this has caused
you and greatly appreciate the assistance you have given us on the
CSAMS project.
